Customer Marketing Tools

In 2014 we have added & improved upon our product offering. We have revised our product brochures and web sites to reflect these changes.

This new multi-product line marketing program includes (7) seven separate product categories which includes brochures and product specific websites.

The new brochures and websites assist your business and your customers with product specification and technical information. The websites are designed generically, providing no link or mention of LMT Mercer Group, Inc making your sales efforts easier while increasing marketing presence to your clientele and potential consumers. You are able to list your business information under the "Where to Buy" tab on all sites.

TO ORDER: Call 888-570-5252 ext. 74, Fax: 609-989-1199, Email: orders@lmtproducts.com

Customer Marketing Tools

LMT's goal is to drive consumers to these websites through print and web ads of a specific product line through target publications, websites and trade shows. We encourage you to add links to these websites on your company's website.

For further information on these marketing programs and how to participate contact your sales representative.

What sets LMT Mercer Group, Inc. apart from the competition?

- LMT manufactures products in the USA.
- LMT offers a lifetime warranty on every product manufactured in the USA.
- LMT uses only prime grade, certifiable virgin vinyl resin, which means you can depend on the strength and durability of the product.

- Custom blended wood composite products available to meet custom applications.
- LMT does not mix vinyl with other inferior products.
- LMT uses UV inhibitors to prevent yellowing and fading.
- LMT's in-house tooling capabilities and engineering services are available to assist you with your individual needs.

- LMT offers AC174 compliant handrail accessories.
- Thick, professional grade vinyl means that LMT's garden products will never warp, dent, shrink, chip or crack.

- LMT's outstanding Customer Service Team follows up on every order.
- LMT's Customer Service team makes strides to guarantee 100% Satisfaction for their customers
- LMT's experienced Sales Team ensures that all of your needs are met.

LMT Mercer Group, Inc., was founded in 1987 in Trenton, New Jersey. LMT supplies high quality component parts to the vinyl and wood composite fence & deck industry. LMT has become the largest manufacturer of vinyl fence, deck and railing accessories in North America and exports products all over the world. LMT manufactures and offers more than 950 products from which to choose. Our products are designed to meet the needs of a diverse and demanding customer base, introducing at least 20 new products each year. Headquartered in Lawrenceville NJ, LMT has manufacturing plants in New Jersey and Hartsville, Ohio, with distribution centers in New Jersey, Ohio and Sparks, Nevada. LMT uses automatic high-cavitation tooling to sustain its competitive edge. LMT operates 33 state-of-the-art injection molding machines equipped with servo-robotics and nitrogen gas-assist capabilities. Machine sizes range from 60 to 1,000 tons. Dedicated Customer Service and Sales teams ensure that customers receive individual attention and care throughout the order process.

Our Mission

The Mission of LMT Mercer Group, Inc. is to be the industry leader in the manufacturing of vinyl caps, accessories and kit products. We will accomplish this by setting the benchmark for quality, customer service and competitive pricing.

LMT Mercer Group, Inc. will also set the pace for new innovations by employing the industry's best. We will be creative not only with the development of new products, but with manufacturing, distribution and sales. We will use all resources available to us in order to make our customers the most competitive they can be, since we are not only their vendor but also their partner.

Anthony Lesenskyj
President

Customer-Focused Partnership

New product molds are designed and developed based primarily on ideas from our customers. LMT listens to the customer and implements their innovations.

Custom Mold-Making Capabilities

LMT's sister company, Lawrence Mold and Tool Corporation, was originally established in 1972 as a custom mold-making facility by Ukrainian-born George Lesenskyj Sr. Located in Trenton, NJ, the company quickly grew with a philosophy of quality craftsmanship, honesty, hard work and dedication.

Specializing in building multi-cavity plastic injection tooling, Lawrence Mold and Tool Corp. builds close to 100 new molds per year for a variety of industries. Lawrence Mold and Tool Corp. has created molds from hard hats to baby bottles.

As one of Lawrence Mold and Tool Corp's largest customers, LMT Mercer Group, Inc. has the competitive advantage of an innovative, flexible and customer-focused partnerships.

Leaders in Innovation

LMT Mercer Group, Inc. is the industry leader for setting the pace for new innovative products. Lawrence Mold and Tool Corp. has the ability to support this pace by building tools that ensure LMT is always on the leading edge of the industry.

Lawrence Mold and Tool Corp. engineers and builds a wide range of molds, from small, single-cavity prototypes to 64 cavity, high-production molds. Lawrence Mold and Tool Corp. experience and expertise allows for the creation of high quality molds for a variety of materials. Our capabilities include, but are not limited to Acrylic, Nylon, PVC, Polyethylene and Poly Carbonate.

The internal synergy of the sister companies allows LMT Mercer Group, Inc. to have the ability to create any mold requested. It also ensures our customers receive consistent high quality products at competitive prices.

This synergistic relationship between our sister company and our customers enables expedient creation or modification of existing parts and the ability to make proprietary parts for our customers. This creates a value added product offering to our customers, enabling them to distinguish their product offerings from the competition.

LMT is fiercely committed to setting the benchmark for superior products at competitive pricing.

...committed to providing superior customer service, with direct relationships with customers.

...committed to establishing, maintaining and improving our quality management system.

...committed to continuous employee development.

...committed to new product introduction strategy.

...committed to being profitable and enabling employees to participate in that profitability.

In 2011 LMT Mercer Group, Inc. was awarded the coveted ISO 9001 Certification.

The award certifies all aspects of LMT's business, with specific procedures set in place to evaluate and improve the company's key processes, ensuring that customers continue to receive unparalleled customer service and support.

LMT is and has always been a forward-thinking company, dedicated to providing its customers across the globe with the highest quality products and service possible. The ISO certification is an extension of that commitment, as LMT strives to standardize our practices across all of our operations.

The ISO Certification helps us provide a more consistent experience to our customers. The certification signifies that LMT has implemented an integrative management system that complies with the ISO standards, and it defines us as a company focused on excellence in management policies, operational processes and continuous quality improvement.

ISO 9001 requirements are among the strictest of the approximately 13,000 standards established by the organization and serve as a model for quality assurance in all facets of LMT's business, including design, development, production, and distribution.

This distinction is also a significant step for LMT's growth as the ongoing process of maintaining ISO certification will facilitate the company's continued corporate success as it works to adhere to the standards of excellence set by the organization. By continually striving to identify areas for improvement in operational processes, product quality and customer service, LMT will offer expanding benefits to its end users and greater value to its corporate brand.

"We're incredibly excited about what it means for our future as a company and are so proud of our entire staff for achieving this tremendous honor," says Lesenskyj. "In addition to this certification, LMT has experienced several other positive changes so far this year including the move to our new Nevada facility as well as our personnel restructuring, all of which, we feel have positioned the company to lead our industry into the future."

LMT is fiercely committed to setting the benchmark for superior products at competitive pricing.

...committed to providing superior customer service, with direct relationships with customers.

...committed to establishing, maintaining and improving our quality management system.

...committed to continuous employee development.

...committed to new product introduction strategy.

...committed to being profitable and enabling employees to participate in that profitability.

Color Policy
LMT Mercer Group, Inc. stocks the majority of our standard catalog items in White, LMT Almond (NA), LMT Khaki (KK) and LMT Beige (KT). We offer most of our accessories in these four colors matching various manufacturer's extrusions, which are commonly known by the color names of "Khaki, Tan, Adobe and Beige."

- 10% up charge on LMT Almond (NA) over White
- 15% up charge on LMT Khaki (KK) over White
- 15% up charge on LMT Beige (KT) over White

Thermo-Formed Spindles are a 20% up charge for LMT Almond, LMT Khaki and LMT Beige.

Custom colors are special runs and most require a 2000 part minimum production run. There is a 20% up charge on custom color runs, unless otherwise noted. The lead times on special runs 3-8 weeks.

For more information on colors or to order sample chips, please call Customer Service at 888-570-5252 ext. 74.

Branding
Branding your company name or logo is available on our most popular caps. There is a minimum order of 2,500 pieces. The lead time is the same as the color policy. Additional charge of 10¢ for one side of a cap or 15¢ for two sides. There is no die charge.

Broken Box Ordering Policy
LMT will sell in less than full box quantities for a broken box fee of \$7.50 per each product number ordered.

Returned Good Policy
If a customer orders incorrect products:

- Contact customer Service at 888-570-5252
- Returns are valid for 30 days from date of delivery with an authorized LMT return material authorization number (RMA). A 15% restocking fee will be applied.
- Each package on a return needs a return authorization number clearly indicated.
- All materials are to be returned freight prepaid. Collect shipments will be refused.
- No returns will be accepted for custom ordered materials (specials) or for custom color items.
- No returns will be accepted on partial box quantities, unless ordered in partial box qty.
- Credit will be issued only for those items listed on the Return Authorization arriving in "like new" condition at LMT.
- Product must be returned within 15 Days of an authorized RMA issued date. If product is not received the RMA will be closed and void.

If a customer needs to return damaged or defective products:

- Products damaged during shipment will only be accepted within 30 days from order delivery, damage must be noted on the bill of lading at time of receipt of shipment.
- Contact Customer Service immediately upon discovery of damaged or defective products for return and or replacement instructions.

Lifetime Non-Prorated Limited Warranty

WHAT AND WHO IS COVERED FOR HOW LONG

LMT warrants to the original homeowner/customer that its vinyl (PVC) products will be free from manufacturing defects - including peeling, flaking and corroding - when subject to normal and proper use. Should any defect occur LMT will repair or replace, at its option, the defective product. LMT also reserves the right to refund the amount paid by the original owner for the product (but not including the cost of its initial installation). In no event shall LMT be liable or responsible for labor charges or other expenses whatsoever in connection with removal or installation of either the original or replacement product.

DESIGNER PRODUCTS

Designer Products are warranted for 20 years and same limitations and coverage as other LMT products.

LIMITATIONS

This warranty does not provide protection against any failure, defect or damage caused by situations and events beyond normal exposure conditions, including but not limited to:

Misuse, abuse, neglect or improper handling or storage; improper installation or installation not in strict adherence to LMT's written instructions; Use of accessories which do not properly receive and/or secure LMT products; Impact of foreign objects, fire, earthquake, flood, lightning, hail, hurricane, tornado or other casualty or act of God; Movement, distortion, collapse or settling of the ground or structure on which the product is installed; Any other cause not involving manufacturing defects in the material supplied by LMT;

Normal weathering is defined as exposure to sunlight and extremes of weather and atmosphere which will cause any colored surface to gradually fade, chalk, or accumulate dirt or stains. The severity of any condition depends on the geographical location of the product, the cleanliness of the air in the area, and many other influences over which LMT has no control.

This warranty does not apply to product which has been painted, varnished or coated over the manufacturer's original finish.

If LMT replaces any material under this warranty, it may substitute products designated by LMT to be of comparable quality or price range in the event the product initially installed has been discontinued or modified.

TRANSFERABILITY

This warranty is not transferable.

OTHER CONDITIONS

THIS WARRANTY REPLACES ALL OTHER ORAL OR WRITTEN WARRANTIES, LIABILITIES, OR OBLIGATIONS OF LMT. PERTINENT STATE LAW SHALL CONTROL FOR WHAT PERIOD OF TIME FOLLOWING THE SALE A HOMEOWNER/CUSTOMER MAY SEEK A REMEDY UNDER THE IMPLIED WARRANTY OF MERCHANTABILITY OR FITNESS FOR A PARTICULAR PURPOSE. IN NO EVENT SHALL LMT BE LIABLE FOR CONSEQUENTIAL OR INCIDENTAL DAMAGES OF ANY KIND, INCLUDING ANY DAMAGE TO THE BUILDING, ITS CONTENTS OR ANY PERSON HEREIN, RESULTING FROM THE BREACH OF THIS WARRANTY. LMT DOES NOT AUTHORIZE ITS DISTRIBUTORS OR DEALERS TO MAKE ANY CHANGE OR MODIFICATION TO THIS WARRANTY. SOME STATES DO NOT ALLOW LIMITATIONS ON, OR THE EXCLUSION OF, INCIDENTAL OR CONSEQUENTIAL DAMAGES, SO THE ABOVE EXCLUSIONS MAY NOT APPLY TO YOU.

This warranty gives you specific legal rights, and you may also have other rights which may vary from state to state.

WHAT THE CUSTOMER MUST DO

The homeowner/customer upon identifying any manufacturing defect must promptly notify LMT in writing and provide proof of the date of purchase.

All notifications should be sent to:

LMT Mercer Group, Inc.
690 Puritan Avenue
Lawrenceville, NJ 08648
Attn: Consumer Services Department

The consumer may be required to submit a sample of the defective material to LMT for analysis. LMT upon confirming that a defect exists and that said defect is covered by this warranty will within a reasonable amount of time repair or provide replacement for the defective material. LMT reserves the right to refund the amount paid by the original owner for the defective material, and accessories, per the terms of this warranty.

This warranty is effective for products purchased after March 15, 2000.

Solar Light Warranty

Solar Lighting
Two Year Warranty

If within two (2) years from the date of purchase, this product fails due to a defect in material or workmanship, LMT Mercer Group, Inc. will repair or replace it, at its sole option, free of charge. This warranty applies only to the original purchaser and is not transferable.

LMT MERCER GROUP, INC. WILL NOT BE LIABLE FOR INCIDENTAL OR CONSEQUENTIAL DAMAGES. SOME STATES DO NOT ALLOW THE EXCLUSION OR LIMITATION OF INCIDENTAL OR CONSEQUENTIAL DAMAGES, SO THE ABOVE LIMITATION OR EXCLUSION MAY NOT APPLY TO YOU.

THIS WARRANTY IS IN LIEU OF ALL OTHER EXPRESS OR IMPLIED WARRANTIES. ALL IMPLIED WARRANTIES, INCLUDING THE WARRANTY OF MERCHANTABILITY AND THE WARRANTY OF FITNESS FOR A PARTICULAR PURPOSE, ARE HEREBY MODIFIED TO EXIST ONLY AS CONTAINED IN THIS LIMITED WARRANTY, AND SHALL BE OF THE SAME DURATION AS THE WARRANTY PERIOD STATED ABOVE. SOME STATES DO NOT ALLOW LIMITATIONS ON THE DURATION OF AN IMPLIED WARRANTY, SO THE ABOVE LIMITATION MAY NOT APPLY TO YOU.

The warranty does not apply to: (a) damage caused by accident, abuse in handling, or dropping; (b) acts of God; (c) units which have been subject to unauthorized repair, opened, taken apart or otherwise modified; (d) units not used in accordance with directions; (e) damages exceeding the cost of the product; (f) sealed lamps and/or bulbs, LED's and batteries; (g) the finish on any portion of the product, such as surface scratches and/or weathering, as this is considered normal wear and tear. Some states do not allow a limitation of damages so the foregoing limitation may not apply to you. This warranty gives you specific legal rights and you may also have other rights, which vary from state to state.

Warranty service is available by mailing postage prepaid to the authorized service station listed below. Please be sure to wrap the product securely when mailing to avoid shipping damage. This warranty is made by LMT Mercer Group, Inc.

Solar Light Warranty

Solar Lighting Five Year Warranty

If within five (5) years from the date of purchase, this product fails due to a defect in material or workmanship, LMT Mercer Group Inc. will repair or replace it, at its sole option, free of charge. This warranty applies only to the original purchaser and is not transferable.

LMT Mercer Group Inc. will not be liable for incidental or consequential damages. Some states do not allow the exclusion or limitation of incidental or consequential damages, so the above limitation or exclusion may not apply to you.

This warranty is in lieu of all other express or implied warranties. All implied warranties, including the warranty of fitness for a particular purpose, are hereby modified to exist only as contained in this limited warranty, and shall be of the same duration as the warranty period stated above. Some states do not allow limitations on the duration of an implied warranty, so the above limitation may not apply to you.

The warranty does not apply to: (a) damage caused by accident, abuse, in handling, and/or dropping; (b) acts of God; (c) units which have been subject to unauthorized repair, opened, taken apart or otherwise modified; (d) units not used in accordance with directions; (e) units that have been submerged in water; (f) damages exceeding the cost of the product; (g) batteries; (h) the finish on any portion of the product, such as surface scratches and/or weathering, as this is considered normal wear and tear. Some states do not allow a limitation of damages so the foregoing limitation may not apply to you. This warranty gives you specific legal rights and you may also have other rights, which vary from state to state.

Warranty service is available by mailing postage prepaid to the authorized service station listed below. Please be sure to wrap the product securely when mailing to avoid shipping damage. This warranty is made by: LMT Mercer Group Inc.

The Facts about Injection Molding PVC

PVC is self extinguishing. It will stop burning after the ignition source is removed. It has an outstanding resistance to a wide variety of chemicals including detergents, acids, salts, grease and industrial cleaners. It also resists staining and stress cracking. It's a tough, recyclable and relatively inexpensive material, which explains why 15% of all of the plastic used in the United States is PVC.

PVC in its pure form is a fairly unstable material. With the addition of several ingredients, the compound becomes processable in injection molding machinery and its physical properties greatly improved. Some common ingredients added to PVC are: heat stabilizers, colorants, Titanium Dioxide, lubricants, fillers and impact modifiers. Although lead is still allowed to be compounded in with PVC in the United States, LMT's PVC does not contain any of this harmful metal.

LMT has MSDS (Material Safety Data Sheets) from our PVC suppliers and they are readily available to all of our customers.

PVC is subject to degradation from ultraviolet radiation, industrial pollutants, acid rain and the ozone. This is especially true in climates that are both hot and dry, such as Arizona. Unless it is protected with a UV inhibitor and/or Titanium Dioxide (TiO₂), colored PVC (including white) degrades when exposed to the elements. The stabilizers absorb the destructive UV light and convert it into energy in the form of heat. However, the darker the color is, the higher the heat build-up and consequently, the worse the degradation. This is the reason why only light or pastel colors are successfully being made in PVC.

The addition of TiO₂ helps reflect the light away, preventing it from being absorbed into the PVC. TiO₂ is one of the most important ingredients used in LMT's custom compounded PVC. In non-weatherable applications, as little as 0.5 parts TiO₂ are used. LMT uses 20 times that amount (10 parts TiO₂) in all of our products. This is one reason why we can guarantee our parts for the life of the owner. Other manufacturers may or may not have this high amount of TiO₂ in their parts.

"10 Parts" or "10 PHR" stands for 10 Parts per Hundred pounds of PVC resin. The amount of each additive is not measured by its volume. It's measured by its weight. Therefore, it is correct to say 10 parts TiO₂, not 10% TiO₂.

Reprocessed and recycled materials can negatively affect the durability and physical performance of PVC products. Each time the material is processed, it is exposed to heat (referred to as heat history) and it depletes the levels of the protective additives. The end result is a reduction of the molecular weight, an increase in the UV sensitivity and a shift in the color; usually to yellow.

Improper molding or mold design can also cause problems. Excessively high processing temperatures for extended periods of times, degrades the material. High shear rates caused by long, thin walled parts, too fast of an injection speed or restrictions in the material flow can also degrade the material. These detrimental mold designs, part designs and processing conditions can cause the color to shift and the impact resistance to diminish. LMT's PVC material includes a heat stabilizer and an impact modifier to ensure that we are providing you with the best product possible. We have the knowledge, experience and ability to handle even the toughest jobs.

A PVC part may be degraded, and yet you can't see it with the human eye. A "black light" can be used to help locate flaws in the material or the process. Our quality Control personnel routinely use this valuable tool during their inspections.

LMT prides itself on being the leader in the industry. We set our standards high and our goals even higher. We hope that our efforts have helped make your company successful.

PVC is also known as Polyvinyl Chloride, Vinyl, RPVC, Rigid Polyvinyl Chloride or PVC-U. PVC is a 95% amorphous material with a specific gravity of 1.30 to 1.46. Water is 1.0.

ICC, ICC-ES: Testing of LMT Products

The International Code Council (ICC) was established in 1994 as a nonprofit organization dedicated to developing a single set of comprehensive and coordinated national model construction codes. The founders of the ICC are Building Officials and Code Administrators International, Inc. (BOCA), International Conference of Building Officials (ICBO), and Southern Building Code Congress International, Inc. (SBCCI). Since the early part of the last century, these nonprofit organizations developed the three separate sets of model codes used throughout the United States. Although regional code development has been effective and responsive to our country's needs, the time came for a single set of codes. The national three model code groups responded by creating the International Code Council and by developing codes without regional limitations the International Codes. (www.iccsafe.org)

ICC-Evaluation Service (ICC-ES) is a subsidiary of ICC, the International Code Council. It is a nonprofit corporation that does technical evaluations of building products, components, methods, and materials. It was formed on February 1, 2003, when America's four building product evaluation services officially combined their operations. The four "legacy" evaluation services that came together to form ICC-ES were the National Evaluation Service, Inc.; BOCAI Evaluation Services; ICBO Evaluation Service, Inc.; and SBCCI Public Service Testing and Evaluation Services, Inc. (www.icc-es.org)

One of LMT Mercer Group's goals is to offer customers strong, durable products that provide for safe, effective deck and railing components. As the industry moves forward with stricter safety and quality standards, LMT has made it a priority to create products that meet or exceed new ICC-ES standards. In order to be ICC-ES certified, vinyl guardrail systems must be manufactured under an approved quality control program with regular inspections by an accredited inspection agency.

"We are committed to supporting customers who wish to secure and maintain ICC-ES certification," says Tony Lesenskyj, President, LMT Mercer Group. "We have been working closely with railing manufacturers and recently re-designed our most popular brackets and spindles to meet the ICC-ES AC174 testing requirements, in accordance with the ASTM D 7032-04 and 1761-88 reference standards."

"We have proven that you do not need to introduce steel, aluminum or zinc castings to pass these stringent guidelines," says Tony. "Using a combination of good part geometry and the correct thermoplastic material we have achieved extremely high strength values at a very cost effective price."

"We recognize that code enforcement officials are beginning to ask for ICC-ES certification," adds Tony. "And we are determined to supply our customers with the high quality products that are required for them to meet these standards."

Request for Taxpayer Identification Number and Certification

**Give form to the
requester. Do not
send to the IRS.**

Print or type
See Specific Instructions on page 2.

Name (as shown on your income tax return)	
Business name, if different from above	
Check appropriate box: <input type="checkbox"/> Individual/Sole proprietor <input type="checkbox"/> Corporation <input type="checkbox"/> Partnership <input type="checkbox"/> Limited liability company. Enter the tax classification (D=disregarded entity, C=corporation, P=partnership) ▶ <input type="checkbox"/> Exempt payee <input type="checkbox"/> Other (see instructions) ▶	
Address (number, street, and apt. or suite no.)	Requester's name and address (optional)
City, state, and ZIP code	
List account number(s) here (optional)	

Part I Taxpayer Identification Number (TIN)

Enter your TIN in the appropriate box. The TIN provided must match the name given on Line 1 to avoid backup withholding. For individuals, this is your social security number (SSN). However, for a resident alien, sole proprietor, or disregarded entity, see the Part I instructions on page 3. For other entities, it is your employer identification number (EIN). If you do not have a number, see *How to get a TIN* on page 3.

Social security number
or
Employer identification number

Note. If the account is in more than one name, see the chart on page 4 for guidelines on whose number to enter.

Part II Certification

Under penalties of perjury, I certify that:

1. The number shown on this form is my correct taxpayer identification number (or I am waiting for a number to be issued to me), and
2. I am not subject to backup withholding because: (a) I am exempt from backup withholding, or (b) I have not been notified by the Internal Revenue Service (IRS) that I am subject to backup withholding as a result of a failure to report all interest or dividends, or (c) the IRS has notified me that I am no longer subject to backup withholding, and
3. I am a U.S. citizen or other U.S. person (defined below).

Certification instructions. You must cross out item 2 above if you have been notified by the IRS that you are currently subject to backup withholding because you have failed to report all interest and dividends on your tax return. For real estate transactions, item 2 does not apply. For mortgage interest paid, acquisition or abandonment of secured property, cancellation of debt, contributions to an individual retirement arrangement (IRA), and generally, payments other than interest and dividends, you are not required to sign the Certification, but you must provide your correct TIN. See the instructions on page 4.

General Instructions

Section references are to the Internal Revenue Code unless otherwise noted.

Purpose of Form

A person who is required to file an information return with the IRS must obtain your correct taxpayer identification number (TIN) to report, for example, income paid to you, real estate transactions, mortgage interest you paid, acquisition or abandonment of secured property, cancellation of debt, or contributions you made to an IRA.

Use Form W-9 only if you are a U.S. person (including a resident alien), to provide your correct TIN to the person requesting it (the requester) and, when applicable, to:

1. Certify that the TIN you are giving is correct (or you are waiting for a number to be issued),
2. Certify that you are not subject to backup withholding, or
3. Claim exemption from backup withholding if you are a U.S. exempt payee. If applicable, you are also certifying that as a U.S. person, your allocable share of any partnership income from a U.S. trade or business is not subject to the withholding tax on foreign partners' share of effectively connected income.

Note. If a requester gives you a form other than Form W-9 to request your TIN, you must use the requester's form if it is substantially similar to this Form W-9.

Definition of a U.S. person. For federal tax purposes, you are considered a U.S. person if you are:

- An individual who is a U.S. citizen or U.S. resident alien,
- A partnership, corporation, company, or association created or organized in the United States or under the laws of the United States,
- An estate (other than a foreign estate), or
- A domestic trust (as defined in Regulations section 301.7701-7).

Special rules for partnerships. Partnerships that conduct a trade or business in the United States are generally required to pay a withholding tax on any foreign partners' share of income from such business. Further, in certain cases where a Form W-9 has not been received, a partnership is required to presume that a partner is a foreign person, and pay the withholding tax. Therefore, if you are a U.S. person that is a partner in a partnership conducting a trade or business in the United States, provide Form W-9 to the partnership to establish your U.S. status and avoid withholding on your share of partnership income.

The person who gives Form W-9 to the partnership for purposes of establishing its U.S. status and avoiding withholding on its allocable share of net income from the partnership conducting a trade or business in the United States is in the following cases:

- The U.S. owner of a disregarded entity and not the entity,

- The U.S. grantor or other owner of a grantor trust and not the trust, and
- The U.S. trust (other than a grantor trust) and not the beneficiaries of the trust.

Foreign person. If you are a foreign person, do not use Form W-9. Instead, use the appropriate Form W-8 (see Publication 515, Withholding of Tax on Nonresident Aliens and Foreign Entities).

Nonresident alien who becomes a resident alien. Generally, only a nonresident alien individual may use the terms of a tax treaty to reduce or eliminate U.S. tax on certain types of income. However, most tax treaties contain a provision known as a "saving clause." Exceptions specified in the saving clause may permit an exemption from tax to continue for certain types of income even after the payee has otherwise become a U.S. resident alien for tax purposes.

If you are a U.S. resident alien who is relying on an exception contained in the saving clause of a tax treaty to claim an exemption from U.S. tax on certain types of income, you must attach a statement to Form W-9 that specifies the following five items:

1. The treaty country. Generally, this must be the same treaty under which you claimed exemption from tax as a nonresident alien.
2. The treaty article addressing the income.
3. The article number (or location) in the tax treaty that contains the saving clause and its exceptions.
4. The type and amount of income that qualifies for the exemption from tax.
5. Sufficient facts to justify the exemption from tax under the terms of the treaty article.

Example. Article 20 of the U.S.-China income tax treaty allows an exemption from tax for scholarship income received by a Chinese student temporarily present in the United States. Under U.S. law, this student will become a resident alien for tax purposes if his or her stay in the United States exceeds 5 calendar years. However, paragraph 2 of the first Protocol to the U.S.-China treaty (dated April 30, 1984) allows the provisions of Article 20 to continue to apply even after the Chinese student becomes a resident alien of the United States. A Chinese student who qualifies for this exception (under paragraph 2 of the first protocol) and is relying on this exception to claim an exemption from tax on his or her scholarship or fellowship income would attach to Form W-9 a statement that includes the information described above to support that exemption.

If you are a nonresident alien or a foreign entity not subject to backup withholding, give the requester the appropriate completed Form W-8.

What is backup withholding? Persons making certain payments to you must under certain conditions withhold and pay to the IRS 28% of such payments. This is called "backup withholding." Payments that may be subject to backup withholding include interest, tax-exempt interest, dividends, broker and barter exchange transactions, rents, royalties, nonemployee pay, and certain payments from fishing boat operators. Real estate transactions are not subject to backup withholding.

You will not be subject to backup withholding on payments you receive if you give the requester your correct TIN, make the proper certifications, and report all your taxable interest and dividends on your tax return.

Payments you receive will be subject to backup withholding if:

1. You do not furnish your TIN to the requester,
2. You do not certify your TIN when required (see the Part II instructions on page 3 for details),
3. The IRS tells the requester that you furnished an incorrect TIN,

4. The IRS tells you that you are subject to backup withholding because you did not report all your interest and dividends on your tax return (for reportable interest and dividends only), or

5. You do not certify to the requester that you are not subject to backup withholding under 4 above (for reportable interest and dividend accounts opened after 1983 only).

Certain payees and payments are exempt from backup withholding. See the instructions below and the separate Instructions for the Requester of Form W-9.

Also see *Special rules for partnerships* on page 1.

Penalties

Failure to furnish TIN. If you fail to furnish your correct TIN to a requester, you are subject to a penalty of \$50 for each such failure unless your failure is due to reasonable cause and not to willful neglect.

Civil penalty for false information with respect to withholding. If you make a false statement with no reasonable basis that results in no backup withholding, you are subject to a \$500 penalty.

Criminal penalty for falsifying information. Willfully falsifying certifications or affirmations may subject you to criminal penalties including fines and/or imprisonment.

Misuse of TINs. If the requester discloses or uses TINs in violation of federal law, the requester may be subject to civil and criminal penalties.

Specific Instructions

Name

If you are an individual, you must generally enter the name shown on your income tax return. However, if you have changed your last name, for instance, due to marriage without informing the Social Security Administration of the name change, enter your first name, the last name shown on your social security card, and your new last name.

If the account is in joint names, list first, and then circle, the name of the person or entity whose number you entered in Part I of the form.

Sole proprietor. Enter your individual name as shown on your income tax return on the "Name" line. You may enter your business, trade, or "doing business as (DBA)" name on the "Business name" line.

Limited liability company (LLC). Check the "Limited liability company" box only and enter the appropriate code for the tax classification ("D" for disregarded entity, "C" for corporation, "P" for partnership) in the space provided.

For a single-member LLC (including a foreign LLC with a domestic owner) that is disregarded as an entity separate from its owner under Regulations section 301.7701-3, enter the owner's name on the "Name" line. Enter the LLC's name on the "Business name" line.

For an LLC classified as a partnership or a corporation, enter the LLC's name on the "Name" line and any business, trade, or DBA name on the "Business name" line.

Other entities. Enter your business name as shown on required federal tax documents on the "Name" line. This name should match the name shown on the charter or other legal document creating the entity. You may enter any business, trade, or DBA name on the "Business name" line.

Note. You are requested to check the appropriate box for your status (individual/sole proprietor, corporation, etc.).

Exempt Payee

If you are exempt from backup withholding, enter your name as described above and check the appropriate box for your status, then check the "Exempt payee" box in the line following the business name, sign and date the form.

Generally, individuals (including sole proprietors) are not exempt from backup withholding. Corporations are exempt from backup withholding for certain payments, such as interest and dividends.

Note. If you are exempt from backup withholding, you should still complete this form to avoid possible erroneous backup withholding.

The following payees are exempt from backup withholding:

1. An organization exempt from tax under section 501(a), any IRA, or a custodial account under section 403(b)(7) if the account satisfies the requirements of section 401(f)(2),

2. The United States or any of its agencies or instrumentalities,

3. A state, the District of Columbia, a possession of the United States, or any of their political subdivisions or instrumentalities,

4. A foreign government or any of its political subdivisions, agencies, or instrumentalities, or

5. An international organization or any of its agencies or instrumentalities.

Other payees that may be exempt from backup withholding include:

6. A corporation,

7. A foreign central bank of issue,

8. A dealer in securities or commodities required to register in the United States, the District of Columbia, or a possession of the United States,

9. A futures commission merchant registered with the Commodity Futures Trading Commission,

10. A real estate investment trust,

11. An entity registered at all times during the tax year under the Investment Company Act of 1940,

12. A common trust fund operated by a bank under section 584(a),

13. A financial institution,

14. A middleman known in the investment community as a nominee or custodian, or

15. A trust exempt from tax under section 664 or described in section 4947.

The chart below shows types of payments that may be exempt from backup withholding. The chart applies to the exempt payees listed above, 1 through 15.

IF the payment is for . . .	THEN the payment is exempt for . . .
Interest and dividend payments	All exempt payees except for 9
Broker transactions	Exempt payees 1 through 13. Also, a person registered under the Investment Advisers Act of 1940 who regularly acts as a broker
Barter exchange transactions and patronage dividends	Exempt payees 1 through 5
Payments over \$600 required to be reported and direct sales over \$5,000 ¹	Generally, exempt payees 1 through 7

¹See Form 1099-MISC, Miscellaneous Income, and its instructions.

²However, the following payments made to a corporation (including gross proceeds paid to an attorney under section 6045(f), even if the attorney is a corporation) and reportable on Form 1099-MISC are not exempt from backup withholding: medical and health care payments, attorneys' fees, and payments for services paid by a federal executive agency.

Part I. Taxpayer Identification Number (TIN)

Enter your TIN in the appropriate box. If you are a resident alien and you do not have and are not eligible to get an SSN, your TIN is your IRS individual taxpayer identification number (ITIN). Enter it in the social security number box. If you do not have an ITIN, see *How to get a TIN* below.

If you are a sole proprietor and you have an EIN, you may enter either your SSN or EIN. However, the IRS prefers that you use your SSN.

If you are a single-member LLC that is disregarded as an entity separate from its owner (see *Limited liability company (LLC)* on page 2), enter the owner's SSN (or EIN, if the owner has one). Do not enter the disregarded entity's EIN. If the LLC is classified as a corporation or partnership, enter the entity's EIN.

Note. See the chart on page 4 for further clarification of name and TIN combinations.

How to get a TIN. If you do not have a TIN, apply for one immediately. To apply for an SSN, get Form SS-5, Application for a Social Security Card, from your local Social Security Administration office or get this form online at www.ssa.gov. You may also get this form by calling 1-800-772-1213. Use Form W-7, Application for IRS Individual Taxpayer Identification Number, to apply for an ITIN, or Form SS-4, Application for Employer Identification Number, to apply for an EIN. You can apply for an EIN online by accessing the IRS website at www.irs.gov/businesses and clicking on Employer Identification Number (EIN) under Starting a Business. You can get Forms W-7 and SS-4 from the IRS by visiting www.irs.gov or by calling 1-800-TAX-FORM (1-800-829-3676).

If you are asked to complete Form W-9 but do not have a TIN, write "Applied For" in the space for the TIN, sign and date the form, and give it to the requester. For interest and dividend payments, and certain payments made with respect to readily tradable instruments, generally you will have 60 days to get a TIN and give it to the requester before you are subject to backup withholding on payments. The 60-day rule does not apply to other types of payments. You will be subject to backup withholding on all such payments until you provide your TIN to the requester.

Note. Entering "Applied For" means that you have already applied for a TIN or that you intend to apply for one soon.

Caution: A disregarded domestic entity that has a foreign owner must use the appropriate Form W-8.

Part II. Certification

To establish to the withholding agent that you are a U.S. person, or resident alien, sign Form W-9. You may be requested to sign by the withholding agent even if items 1, 4, and 5 below indicate otherwise.

For a joint account, only the person whose TIN is shown in Part I should sign (when required). Exempt payees, see *Exempt Payee* on page 2.

Signature requirements. Complete the certification as indicated in 1 through 5 below.

1. Interest, dividend, and barter exchange accounts opened before 1984 and broker accounts considered active during 1983. You must give your correct TIN, but you do not have to sign the certification.

2. Interest, dividend, broker, and barter exchange accounts opened after 1983 and broker accounts considered inactive during 1983. You must sign the certification or backup withholding will apply. If you are subject to backup withholding and you are merely providing your correct TIN to the requester, you must cross out item 2 in the certification before signing the form.

3. Real estate transactions. You must sign the certification. You may cross out item 2 of the certification.

4. Other payments. You must give your correct TIN, but you do not have to sign the certification unless you have been notified that you have previously given an incorrect TIN. "Other payments" include payments made in the course of the requester's trade or business for rents, royalties, goods (other than bills for merchandise), medical and health care services (including payments to corporations), payments to a nonemployee for services, payments to certain fishing boat crew members and fishermen, and gross proceeds paid to attorneys (including payments to corporations).

5. Mortgage interest paid by you, acquisition or abandonment of secured property, cancellation of debt, qualified tuition program payments (under section 529), IRA, Coverdell ESA, Archer MSA or HSA contributions or distributions, and pension distributions. You must give your correct TIN, but you do not have to sign the certification.

What Name and Number To Give the Requester

For this type of account:	Give name and SSN of:
1. Individual	The individual
2. Two or more individuals (joint account)	The actual owner of the account or, if combined funds, the first individual on the account ¹
3. Custodian account of a minor (Uniform Gift to Minors Act)	The minor ²
4. a. The usual revocable savings trust (grantor is also trustee)	The grantor-trustee ³
b. So-called trust account that is not a legal or valid trust under state law	The actual owner ¹
5. Sole proprietorship or disregarded entity owned by an individual	The owner ³
For this type of account:	Give name and EIN of:
6. Disregarded entity not owned by an individual	The owner
7. A valid trust, estate, or pension trust	Legal entity ⁴
8. Corporate or LLC electing corporate status on Form 8832	The corporation
9. Association, club, religious, charitable, educational, or other tax-exempt organization	The organization
10. Partnership or multi-member LLC	The partnership
11. A broker or registered nominee	The broker or nominee
12. Account with the Department of Agriculture in the name of a public entity (such as a state or local government, school district, or prison) that receives agricultural program payments	The public entity

¹ List first and circle the name of the person whose number you furnish. If only one person on a joint account has an SSN, that person's number must be furnished.

² Circle the minor's name and furnish the minor's SSN.

³ You must show your individual name and you may also enter your business or "DBA" name on the second name line. You may use either your SSN or EIN (if you have one), but the IRS encourages you to use your SSN.

⁴ List first and circle the name of the trust, estate, or pension trust. (Do not furnish the TIN of the personal representative or trustee unless the legal entity itself is not designated in the account title.) Also see *Special rules for partnerships* on page 1.

Note. If no name is circled when more than one name is listed, the number will be considered to be that of the first name listed.

Secure Your Tax Records from Identity Theft

Identity theft occurs when someone uses your personal information such as your name, social security number (SSN), or other identifying information, without your permission, to commit fraud or other crimes. An identity thief may use your SSN to get a job or may file a tax return using your SSN to receive a refund.

To reduce your risk:

- Protect your SSN,
- Ensure your employer is protecting your SSN, and
- Be careful when choosing a tax preparer.

Call the IRS at 1-800-829-1040 if you think your identity has been used inappropriately for tax purposes.

Victims of identity theft who are experiencing economic harm or a system problem, or are seeking help in resolving tax problems that have not been resolved through normal channels, may be eligible for Taxpayer Advocate Service (TAS) assistance. You can reach TAS by calling the TAS toll-free case intake line at 1-877-777-4778 or TTY/TDD 1-800-829-4059.

Protect yourself from suspicious emails or phishing schemes.

Phishing is the creation and use of email and websites designed to mimic legitimate business emails and websites. The most common act is sending an email to a user falsely claiming to be an established legitimate enterprise in an attempt to scam the user into surrendering private information that will be used for identity theft.

The IRS does not initiate contacts with taxpayers via emails. Also, the IRS does not request personal detailed information through email or ask taxpayers for the PIN numbers, passwords, or similar secret access information for their credit card, bank, or other financial accounts.

If you receive an unsolicited email claiming to be from the IRS, forward this message to phishing@irs.gov. You may also report misuse of the IRS name, logo, or other IRS personal property to the Treasury Inspector General for Tax Administration at 1-800-366-4484. You can forward suspicious emails to the Federal Trade Commission at: spam@uce.gov or contact them at www.consumer.gov/idtheft or 1-877-IDTHEFT(438-4338).

Visit the IRS website at www.irs.gov to learn more about identity theft and how to reduce your risk.

Privacy Act Notice

Section 6109 of the Internal Revenue Code requires you to provide your correct TIN to persons who must file information returns with the IRS to report interest, dividends, and certain other income paid to you, mortgage interest you paid, the acquisition or abandonment of secured property, cancellation of debt, or contributions you made to an IRA, or Archer MSA or HSA. The IRS uses the numbers for identification purposes and to help verify the accuracy of your tax return. The IRS may also provide this information to the Department of Justice for civil and criminal litigation, and to cities, states, the District of Columbia, and U.S. possessions to carry out their tax laws. We may also disclose this information to other countries under a tax treaty, to federal and state agencies to enforce federal nontax criminal laws, or to federal law enforcement and intelligence agencies to combat terrorism.

You must provide your TIN whether or not you are required to file a tax return. Payers must generally withhold 28% of taxable interest, dividend, and certain other payments to a payee who does not give a TIN to a payer. Certain penalties may also apply.

Post Caps Post Skirts Solar Lights Low Voltage Lights

LMT introduces The Designer product line, a metallic and ceramic powder coated product line to enhance your customer's fence, deck, and handrail.

The Designer product line allows for the custom designer look by using accent colors with textured finishes. There are six standard colors to choose from, and some products can be mixed with standard LMT PVC colors. Custom colors and products are also available, just contact LMT Customer Service with your request.

Standard Designer finishes and colors are Patina, Antique Copper, Antique Gray, Antique Gold, Antique Brown and Hammetone Black. The Neptune, Cape May, and Haven post caps can have different finishes on top and lower base (skirt) portion of caps, or the top and base can also be a PVC/ acrylic color such as white, almond, khaki or beige.

When ordering product use the product part number followed by the finish color you desire.

For example, product number 1473 (3-5/8" Sq. Cape May Post Cap): To order in Antique Copper top with a White base, use the first color name after part number "top" of cap, and then add another color name for base portion. (pictured bottom right)

"1473 Antique Copper/White" would be a designer cap with Antique Copper top portion with a White PVC base.

The LMT Designer products carry a 20 year replacement warranty and will not tarnish like stamped metal post caps.

The ultrasonically weldable picket cap from LMT Mercer Group's is the latest innovation designed to save our customers time and money in fence section fabrication. The ultrasonically weldable picket caps were first introduced to customers in 2006 in conjunction with Fence Masters Technology, Inc. using their Picket Master tm machinery.

The patented (patent # US 7,204,898) LMT Mercer Group, Inc ultrasonically weldable picket caps are automatically welded onto your picket extrusions using custom designed caps with "ultrasonic energy directors". The weldable picket caps eliminate the need for messy glue and expensive labor. Customers interested in weldable picket caps are asked to contact LMT Mercer Group, Inc Customer Service, as there are specific requirements to fit each extrusion manufacturers picket extrusion profile dimensions.

Another innovative system for the PVC fence industry from FMT.

Now you can eliminate the headaches from your current picket/cap assembly system. No more messy, expensive glue! No glue cure time! No fumes! No expensive labor!

The new **PICKET MASTER™** assembly system eliminates major production bottlenecks by combining innovative automation with state-of-the-art plastics "welding." The system creates a fast, economical method for assembling pickets, caps and notching.

- The **PICKET MASTER™** is fully adjustable for a quick and simple change of picket lengths 8" to 72".
- The machine utilizes a comparably priced new picket cap designed exclusively for the **PICKET MASTER™**. The picket cap was created with energy directors to produce a strong, fast "welded" joint. The caps are available in 1" or 3" sizes.
- The machines are fully computer controlled and have a fast 5 second cycle time. That means one operator could produce up to 720 pickets per hour!
- The unique "welding" system is almost instantaneous and makes a strong, permanent joint. No objectionable marking is evident on the picket or cap. The machine's EZ load picket hopper and clamps are lined with non-marking nylon or polycarbonate material to prevent scratching of the parts during processing. Parts are automatically ejected to a holding bin.
- "Welding" or bonding is achieved by using high frequency frictional heat, the assembly process is environmentally safe, and the bond or "welds" produced are clean and consistent.

MODEL PM-II.....call for pricing
Automatic Cap Welding For Multiple Size Pickets. Automatic Notching. Vertical Hopper for Feeding Caps & Pickets.

Option:
Cap Loader and Notching Head For Different Picket Size.....call for pricing

MODEL PM-II Junior.....call for pricing
Automatic Cap Welding For Multiple Size Pickets. Automatic Notching. Manual Feed for Pickets.

DESIGNED AND MANUFACTURED IN THE U. S. A.

Blu-Mount™

Blu-Mount™ is a post surface mount designed for installing a 4" and 5" post to concrete, wood and composite decking. Blu-Mount™ is designed with an adjustable leveling feature to ensure accurate installation. They are made from Q235 steel with a Dachromate coating for superior rust prevention in even the most severe environments. The aluminum guides are made from 6063 T5 Aluminum alloy. Both the aluminum and PVC guides are designed to function with all wall thickness of 4" and 5" post profiles.

NOTE: Hardware pack #1368 for Wood & Composite applications or #1369 for Concrete applications must be ordered to complete the installation.

U.S. Patent # 7,530,550

BLU-MOUNT™

POST MOUNT INSTALLATION INSTRUCTIONS

Step 1

- a. Lay out the location of the post.
- b. Wood Only – Install at least 3" of blocking under the mounting location. Securely attach the blocking using reinforcement screws.

Step 2

- a. Using the leveling plate as a template, mark the locations of the 4 mounting holes to be drilled.
- b. Concrete Only – Drill 4 holes into the concrete using a 1/4" diameter masonry drill bit. The hole must be drilled to a minimum depth of 3-1/2".
- b. Wood Only – Drill 4 holes through the decking and blocking using a 3/8" diameter drill bit.
- c. Clean out the holes of all dust and debris.

Step 3

- a. Install the 4 leveling bolts into the post mount member.
- b. Place the leveling plate on the concrete or decking surface, as appropriate, and align over the 4 drilled holes.
- c. Place the post mount member on top of the leveling plate and align the 4 holes.
- d. Adjust the leveling screws to ensure the post mount member is level.

Step 4 – Concrete Only

- a. Install the 4 concrete bolts with washers, as shown, by applying downward pressure while turning in a clockwise direction.
- b. Continue to tighten the bolts until the heads are firmly seated. (Do not over tighten.)

Step 4 – Wood Only

- a. Install the 4 mounting bolts with washers, as shown.
- b. On the underside, place the back plate over the exposed mounting bolts. (Use the centered holes for in-line applications and the offset holes for corner applications.)
- c. Secure the back plate by using the supplied mounting nuts and washers.

Step 5

- a. Install the two guide blocks onto the post mount member. They should be positioned so that the screws from the railing brackets will screw into the guide blocks.
- b. Once the proper heights are established, drill a 3/16" diameter hole through both the guide block and the post mount member. Install the supplied guide block screws to hold the guide blocks in place.

Step 6

- a. Install the post profile and rail brackets according to manufacturer specifications.

IMPORTANT:
 Installer must consult local code officials for compliance to building code requirements.

U.S. Patent #D552,264

The Rook Post Mount Adapter is a 100% PVC sleeve designed to fill the void between standard sized 1-5/8", 1-7/8", 2", 2-3/8". round pipe and a 4" or 5" vinyl post. The Rook acts as a spacer from the outside wall of the pipe to the wall thicknesses of 4" and 5" vinyl posts. They slide over the round pipe and are fastened with screws. Just slide the vinyl post over The Rook Post Mount Adapters and you have a professionally installed vinyl post.

Benefits:

1. Allows for vinyl post installation in troubled areas.
2. Offers the option of retrofitting chain-link fences to vinyl.
3. Adds flexibility with various wall thicknesses of vinyl posts.
4. Provides the option of no digging and no mess vinyl post installation.

Size:

Five (5) sizes are available: Fits 4" and 5" vinyl sleeves.

	Product #	Description	Box Wt.	Box Qty.	Available Colors
Sunburst Panels					
	1237	4' Sunburst Panel Decorative Insert Overall Dimensions: 12" x 46" x 0.524"	41 lbs	10 Skid Qty 180 pcs	W: White KK: Khaki NA: Almond KT: Beige
	1238	6' Sunburst Panel Decorative Insert Overall Dimensions: 12" x 70" x 0.524"	58 lbs	10 Skid Qty 180 pcs	W: White KK: Khaki NA: Almond KT: Beige
	1239	8' Sunburst Panel Decorative Insert Overall Dimensions: 12" x 94" x 0.524"	73 lbs	10 Skid Qty 180 pcs	W: White KK: Khaki NA: Almond KT: Beige

These Accent Panels were designed to be used with either 4" Sq. or 5" Sq. posts. There are 2" tabs on both ends to account for varying distances between posts and for inclined or "racked" fence panels. The top and bottom edges mount quickly and firmly into standard U-Channel. The ends can be butted up to the posts or inserted into routed slots.

Screws, Rivets, Plugs, Glue & Clips					
	1222	<p>1.5" Sq. Extension Clip 1-1/2" Sq. Extension Clip 0.0525" Diameter x 0.130", Designed to connect a 1-1/2" x 1-1/2" profile to any size post. To install: Drill a 5/8" diameter hole in the post and push the barbed end of the connector in. Then drill two 1/4" diameter holes in the end of the profile. Snap the profile into the connector and you are done. No glue is required! Maximum profile dimensions: 1.525" x 1.525" / Corner Radius: 0.188" Fits externally Total height: .5125" Over-all outside dimension: 2.020" Sq. See figure 1 below.</p>	10 lbs	250 N/A	W: White
	1242	<p>2" Rail Clip Fits 2" wide profile</p>	16 lbs	500 Skid Qty 18000 pcs	W: White
<p>The Rail Clip is used to quickly join a horizontal rail to a vertical post without the use of glue or brackets. It was designed so that two or more opposing rails can be installed into a 4" x 4" (or larger) Post without interfering with one another. The pre-loaded spring design holds the Rail Clip securely in place. The rail slides into the post very easily, but can not be pulled out. The Rail Clip works with any industry standard Post or Rail, regardless of their wall thickness. The Rail Clip is made from 100% PVC with 10 parts TiO2. To install, drill or route a 1/2" DIA hole 3/4" from the end of your rail. Insert the Rail Clip. Slide the assembly into a routed post.</p>
