# About New England Arbors

Any New England Arbors product is the perfect choice to personalize and beautify your yard: An arbor that adds a focal point to an entryway or acts as a home for your climbing plants. A pergola that creates a relaxing outdoor room. A lamp post that casts a charming light, welcoming friends to your home, or a planter box to bring the beauty of your garden right to your front door.

Because we value your time as much as you do, all of our vinyl products are 100% maintenance free. You'll never have to paint, stain or worry about your New England Arbors purchase- a promise we make for 20 years!

New England Arbors focuses on our products from the first design, through the manufacturing process and the marketing of the final product. We're glad to spend the extra time, attention and money to present our products in the best light. We're proud of our attention to detail. At New England Arbors the little touches are as important as the big picture - and we think you'll notice the difference.

 For 5x5 Posts (VA80250) \$99.99

## Professional Post Extension Kit

The Professional Post Extension Kit is primarily recommended for arbor installations that will include a connecting fence or gate. It is also ideal for extreme wind areas or ground conditions that are not level from one side of the arbor to the other.

The Pro-Post Extension kit fits into the bottom of the arbor posts, adding 30" of in-ground allowance for installation in grass or soil. Pro-Post Extensions can also be used to add height to arbors (though a joining seam will be seen.)

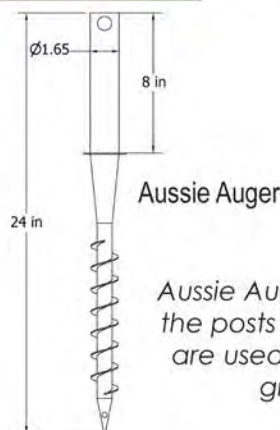

## A faster, cleaner, easier way to install your arbor

Leave your shovel and wheelbarrow in the garage. No need for concrete either. The Aussie Auger system is the ideal solution to save time and stress.

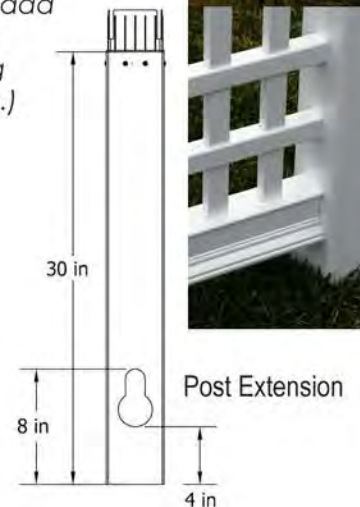

Surface Mount

Surface Mounts sleeve 8" into the posts of your arbor and are used for installation on concrete.

Aussie Auger

Aussie Augers sleeve 8" into the posts of your arbor and are used for installation in grass or soil.
